Federal-Provincial Resettlement Program

First Resettlement Agreement (1965-1970)

&

Second Resettlement Agreement (1970-1975)

Completed to April 30th, 1973

C O N T E N T S

The following table contains the complete statistics of householders and members who were assisted to resettle under the First Household Resettlement Agreement (1965-70) and for the Second Household Resettlement Agreement (1970-75), the number of householders and members who resettled up to April 30, 1973.

It is a combination of four previous reports and is now issued in a pocket size edition for convenience of the reader.

In certain instances, especially under the Program 1965-70, it will be noted that a very limited number of householders were permitted to resettle to what would appear to be non-receiving communities. The reasons for such movements were to complete the evacuation of certain isolated places and for compassionate reasons. This was taken care of under (Section 7, Subsection (b) Part II - widows, handicapped or incapacitated) the Second Resettlement Agreement (1970-75).

The places shown in capitals and numbered are the Reception Centres. Underneath these Reception Centres are the places (in small print) from which the families resettled in numbers as indicated in the various columns.

H Abbreviation for householder.

M Abbreviation for member.
